

CONFIDENTIAL

Chief, Map Branch

23 May 1949

Acting Chief, Staff Intelligence Group

SR Production Schedule

1. In accordance with our conversation of 6 May, we have gathered the attached data on the anticipated appearance of SR's now in production. It should be emphasized that these are not commitments, but merely estimates of the approximate dates when drafts can be expected in our office. In general, a four- to six-week period elapses between the receipt of a draft and dissemination.

2. In each case we have ascertained whether the Branch in question would care to have your branch prepare the geographical appendix; in all instances except those marked (*), the branches would greatly appreciate having you prepare this material.
